FERTILIZER.

FERTILIZER.

W HANN'S RAW BONE SUPER PHOSPHATE.

The unexampled success of this renowned manure during many years, has won for it a reputation which few other fertilizers can claim. Its sales are very extensive in all parts of the country, especially in those puris of the South where cotton and corn are largely grown. So decided and positive have been its results on these important staples, that in many sections it is preferred to all other manures.

### Whann's Raw Bone Super Phosphate

is prompt and active in its effects. It starts the young plant vigorously, and by furnishing a steady supply of nutriment during the period of its growth, brings the crop to a healthy maturity in time to escape the ravages of early frosts. We offer this well known fertilizer to our friends, confident that they will concur in the orinion of the leading planters of the South, that for Cotton and Corn it is unequalled.

PHOSPHATE

AMMONIATED

Is said to be the best fertilizer ever used, and is the cheapest by \$5.00 per ton of any Standard Fertilizer sold in the State. Gentlemen who used it last season and have bought again this, WRITE US CONCERNING ITS EFFECT as follows:

WAKE COUNTY, N. C., December 21, 1873. MESSES. A. C. SANDERS & CO., Raleigh:

Gents—I used the ten (10) tons of the Star Phosphate bought of you last Spring, and it turned out as well, if not better, than either of four different kinds that I used. I am well pleased with it and wish you to reserve me some for next season.

Yours truly.

NEAR RALEIGH, N. C., December 13, 1873. MESSES. A. C. SANDERS & CO., Raleigh:
Gents.—The Star Phosphate bought of you last season acted exceedingly well on
my plantation, and I shall use it altogether next season.
Yours truly,
WILLIS H. WHITAKER.

FRANKLIN COUNTY, N. C., December 22, 1873. MESSUS, A. C. SANDERS & CO., Raleigh:

Gentlemen—I cheerfully recommend the Star Phosphate I bought of you last season as a No. 1 Fertilizer. It think it equal to any I ever used.

Yours truly,

W. K. Davis.

BEAUFORT COUNTY, N. C., December 29, 1873. Masses. A. C. SANDERS & CO., Raleigh:

Gentlemen—I take pleasure in recommending the Star Phosphate, bought of you last Spring to all farmers as a No. 1 fertilizer. I consider it equal to any I ever used.

INSURANCE MATTERS.-For the benefit and guidance of foreign Insurance Companies doing business, or wishing to do business in this State, the Public Treasurer has published a circular embodying a construction of Section 25, Schedule B of the Revenue law as follows:

1st. Every Insurance Company wishing to do business in the State must appoint a General Agent, who shall be responsible to this Department for the taxes of his Company. 2d. The General Agent must pro-cure license from the State Treasurer,

showing to the Treasurer his appoint-

ment as such General Agent under the seal of the Company. For the license he pays to the Treasurer one hundred dollars. The license must be renewed, and one hundred dollars paid, annually. 3d. The counties cannot require any \$100 or any round sum for license, but may impose a tax of one per cent.

on gross receipts from the premiums charged for insurance therein. 4th. Cities and towns cannot levy any tax on Insurance Companies. 5th. The General Agent must pay the State Treasurer semi-annually on the first day of July and January in each year, two per cent. on gross re-ceipts from premiums. He shall make a statement of such receipts

under oath. 6th. The General Agent must furnish each sub-agent a commission, authorizing him to do business. Any one soliciting insurance without such commission, will be liable to indictment, and on conviction, a fine of not less than \$1,000, and imprisonment fact and govern themselves accordinly.

not less than ninety days.
7th. Each sub-agent must make return to the Register of Deeds of the county in which the insurance is effected, of all the business done by him during the preceding six months, on the first days of July and January," and pay to the Sheriff the

county tax assessed. 8th. The General Agent must return to the Register of Deeds of each county on the above mentioned days, the amount of gross receipts from premiums received in such county. 9th. The General Agent is likewise liable for the county tax, if the subagent does not pay it.

10th. In case the returns required of the General Agent to be made to action for any penalty until after thirty days, but will insist on the penalties unless the whole matter is closed up and payment made by the first days of August and February.

11th. The State Tax can be diminished to one per cent. if the Company exhibits to the Governor, Auditor and Treasurer a sworn statement of investments in real property situate in this State, or loans secured by mortgage to citizens of the State, of an amount equal to one-half of the gross receipts.

PENALTIES. 12th. For failure to make returns and payments as required, the Company must pay \$2,000. The General Agent is personally liable therefor.

For such failure, the sub-agent shall pay \$25 for each policy effected or negotiated. The punishment for a local or sub-agent soliciting insurance without a commission from his principal is indicated in paragraph 6th of this circular.

MEETING OF THE STATE BOARD OF IMMIGRATION.-In our recent allusion to the law establishing a Bureau of Immigration, Statistics and Agriculture, in connection with the office of the Secretary of State, as required by the Constitution of the State, we made a misstatement as to the day of meeting. A meeting of the Board of Immigration has been called by the Secretary of State, who is ex-officio President of the Board, on the 12th inst., in the office of the Secretary of State. We republish the names of the members of the Board as named in the following section of the bill establishing the Bureau: SECTION 1. The General Assembly

of North Carolina do enact, That the Secretary of State, the State Geologist, the Commissioners of Immigration, David G. Worth, of New Hanover county, Henry Nutt, of New Han-over county, John B. Gretter, of Guilford county, R. R. Bridges, President of the Wilmington and Weldon and Wilmington and Columbia and Augusta Railroads, Capt. S. H. Gray, of Craven county, Dr. W. J. Haw-kins, President of the Raleigh and Gaston and Raleigh and Augusta Air Line Railroads, E. M. Holt, Esq., of Alamance county, Col. Wm. John-ston, of Mecklenburg county, and Col. Edwin J. Aston, of Buncombe county, shall constitute a Board of Immigration, &c. The Secretary of State, by virtue of his office, shall be President of said Board, with some member of the same as Secretary, to record their proceedings, and to make a report to the General Assembly.

A MERITED COMPLIMENT.-We copy with pleasure the following compliment from the Warrenton Gazette of last Saturday to our distinguished townsman, Gen. W. R. Cox. The Gazette, however, makes this mistake: the General will be "on duty" until after the summer Courts. Says the Gazette:

Gen. Cox will never again, we suppose, attend Warren Court as Solicitor. Our District being Republican by several thousand majority of course the Radicals, who never fail to go for the spoils, will elect one of their own party in August next. We know what we say when we state that the people of Warren will part with Gen. Cox with many regrets. Many of our citizens delighted to follow him on the battle field, and they never found him, from Manassas to Appomattox, any where but at the head of his columns. Soon after the war he was elected Solicitor for this District, and he has served us well and faithfully. His chivalrous character prevented his prosecuting too harshly. His love of justice never allowed him to suffer criminals to go unwhipt of justice. As an officer he has ever proved honest, faithful, diligent, able and merciful. The true people of North Carolina will ever delight to honor such a faithful servant and excellent gentleman."

THE DAILY PRESS-ITS POWER TO CENTRALIZE TRADE.—Scribner's Monthly for March contains an interesting article, written by Dr. Holland, the editor, on "The Press." The value of a bright, active, enterprising daily press in giving impetus to the trade of a city is suggested and Springfield, Mass., is noted as an exmple. We quote a portion of the article, and ask the attention of our

readers, particularly our own citizens, to the following extract:

"The power of the daily press to centralize trade, especially those branches of trade which are not dependent upon facilities, natural or artificial, for shipping and carriage, has hardly been appreciated by the public. The grain produced by the Western States will naturally seek the quickest and cheapest transport to the best shipping point, irrespective of all other considerations. Great commercial centres are fixed by good harbors, easily accessible from land and sea. But there are multitudes of manufactures which may be, and are, carried on anywhere, without reference to the circumstances that fix the centres of commerce, and other things being equal, they seek centres of influence and advertising facilities. A bright, enter-prising, influential press, in any town, is a centralizing power for all these interests. The press advertises the locality—it is the exponent of its life and spirit-it is the centre of its moral, political, and social influence, and does more, perhaps, than any other agency to attract the organized industry of its near and remote neighborhood.

"The city of Springfield, Massa-chusetts, is, perhaps, as good an illus-tration of the power of a daily press to centralize trade and manufactures as any that the country offers. We wonder whether the residents of that city know how much they owe to their daily press for their constantly growing prosperity. For twenty-five years they have had a daily press whose enterprise, industry, intelli-gence and influence are believed to have been without precedent or parallel in the history of provincial newspapers throughout the world. We think, indeed, that this is but a just statement of the fact; and there is nothing in the location of the this office cannot be effected at the town and its relations to the country exact day mentioned in the law, the to justify the supposition that it through other cau known throughout the whole country by its press, and that press has magnified its importance and influence everywhere. It has been a centre of intelligence and a centre of attraction, and has done, in one sense more than anything else to make the town what it is-one of the brightest and most enterprising towns in New England,

> STRIKE OF THE HOTEL WAITERS. -On Sunday just before dinner was announced at the Yarborough House, some little excitement was occasioned by a display of insubordination on the part of some of the dining room servants. Grey Washington, col., the neat and attentive head waiter. gave some order which a number of his subordinates refused to obey. He reported the disobedience at the office, and the order was re-issued from headquarters. The refactory waiters, taking the studs, declared they would leave rather than obey the objectionable order. Soon we saw marching through the office, Frank Wheeler, Preston Hill, Jno. Kittrell, Robert Hall, Mark Hawkins, Austin Dunston, Robert Boykin and Sam Harrison. Now as the clock had struck the hour of one, we confess that things to a hungry man looked a little gloomy, and but for the entire reliance we placed in our landlord we should have incontinently started out in search of a good, square meal somewhere else.

Dr. Blacknall is always sober, cool and deliberate, and not to be baffled by any small matter, so at the usual time dinner took place with nearly an entire change of waiters, and but for the appearance of strange faces around the tables, all was so quiet and orderly, no one would have ever dreamed that any thing unusual had occurred in a month, when in reality a rather serious strike had taken place but one short hour previously.

SUPREME COURT.—Monday, March 2nd. Court met at 10 o'clock, a. m. All the Justices on the bench except Justice Bynum, who had been of counsel in the cases up for consideration in the Court below. The following cases from the 9th District were argued:

Bourroughs & Springs et al. vs. Bank of Charlotte, from Mecklenburg. Jones & Johnston for plaintiffs and Wilson & Son for defendant. Clem. Dowd, admr. vs. North Carolina Railroad Company, from Mecklenburg. Vance, Brown and Dowd for the plaintiff and Wilson & Son. and R. Barringer for defendants.

Wylie, Roddie & Ames vs. J. G. Bryce, from Mecklenburg. Jones & Johnston for plaintiffs and Vance and Dowd for the defendant. A. M. Sloan & Co. vs. R. J. Me-Dowell, from Mecklenburg. Wilson & Son for plaintiffs and H. W. Guion

for defendant. The Court adjourned to meet again to-morrow (Tuesday) at 10 a. m.

JULIUS LEWIS & Co.—This firm is one of the most enterprising and active in the South in the hardware line. The large and magnificent establishment on Fayetteville Street, just above Metropolitan Hall, is one of the best appointed south of Mason and Dixon's line, and is always filled with a first class stock in their line of trade. The members of the firm are reliable gentlemen and possess business qualifications of a very high order, and all of the employees are polite, attentive and well instructed in their business. Such a business house as that of Messrs. Julius Lewis & Co. is a valuable acquisition to any city and we wish that Raleigh had many more such. In calling attention to their advertisement in this issue, we can heartily and conscientiously recommend them to the public,

RESIGNED.—The resignation of W. S. Bynum, Esq., as Solicitor of the 9th Judicial District, has been received at the Executive office. Mr. Bynum only received the appointment a short time ago. He was appointed to fill the vacancy occasioned by the elevation of his father, Col. W. P. Bynum, to the Supreme Court bench. We learn that Mr. Bynum resigns in State Treasurer will not commence | would have reached its present status | order to prosecute more closely his tering the priesthood of the Protestant Episcopal Church.

FOUNDRY AND MACHINE WORKS. -Messrs. McCallum, Wyckoff & Hope have succeeded Messrs. Separk, Hicks & Co., in the foundry business in this city, and are prepared to ac-commodate the public. Mr. Hope has been the manager of a large foundry and machine shop in Philadelphia for the last nine years, and is thoroughly qualified to execute every kind of work in that line. We cheer fully recommend this new firm to the public.

-The Ashantee war did not come to the happy termination it was asserted a few few days since. Her Majesty's Sir Wolseley had to pull down a few more of the 'Shantees before leaving the country.

-The California minstrels did not give satisfaction in Norfolk. The "Landmark" characterizes their conduct there as anything but good, and hopes the South will not again be cursed with them.

-The Richmond "Whig" is opposed to the Granges upon the ground that it "op-poses all secret political societies." We were under the impression the Granges had nothing to do with politics.

-The Richmond "Enquirer" calls Katie Putnam "that true child of nature whe has not yet been spoiled by flattery." Katie was determined not to be flattered this season by her admirers in this section.
—Sneezing is very seldom heard in parlors now after the old folks have retired, for

lovers bear in mind the receipt given by Dr. Brown-Sequard—that sneezing can always be stopped by pressing the upper lip -and act accordingly. -Let those who are doubtful as to the

profits of a cotton factory read this little item from a Georgia paper: 'The factory of Messrs. Russell & Armstrong, of Augusta, which cost forty-two thousand dollars, will realize a net profit of over twenty-five thousand dollars a year.

-The Legislature and the press of Virgin ia are still considering the question of immigration. We hope to see the day when Virginia and North Carolina will have their vacant lands occapied by the sturdy sons and daughters of Europe that are daily seeking homes in this country.

THE whisky war of the West has found its counterpart in India. One KALIKRISHNA has presented a memorial, signed by sixteen thousand others, to the Viceroy of India on the increase of intemperance. The petition, however, ascribes the growth | by the Cabinet and that Mr. DAVIS of the evil in that country to the fact that "the ideas and principles of the people of that country have been unsettled by English education and aggressive civilization."

MISS BETSY DARLING, of Virginia, will shortly make her debut on the New York stage. She has been studying under several of the most eminent of the teachers of the metropolis, and is said to possess considerable histrionic ability. We trust that her career may not be similar to that of our own amiable and accomplished LAURA ALEXANDER, whose sad fate so awoke the sympathies of all who knew her a few weeks ago.

THE memorial of the South Carolina Tax-Payers' Convention was subsequently considered in the Legislature of that State, and if we can judge from the reports, it proved a firebrand to the thieves who have been plundering the State so effectively. Gov. Moses has become mum, and the "ring men" are fluttering. We hope for more good results from this honest expression of the oppressed people of the State.

PETERSBURG is happy. On last Saturday the Virginia Legislature adopted the charter which was prayed for by the good citizens of Petersburg, in order to relieve them from the oppressive misrule of negro domination which has retarded the prosperity of that city since the late war. The town was ablaze on Saturday night with illuminations, and the people rejoiced muchly. We extend our hearty congratulations to the Petersburgers at the result, and hope the city may soon realize that pros-perity which of right belongs to her.

BUTLER has won his fight. SIM-Mons has been confirmed and Boston professes the greatest indignation. The delegation of solid citizens, whom she sent to oppose his confirmation, have returned home sadder and wiser men, convinced that the influence of the inevitable BENJAMIN F. is almost omnipotent with the ad-

ministration. They beseiged the President and he refused to recall the nomination; they sought out BUTLER and begged him to consent to its withdrawal, but he would not. Then they approached BOUTWELL upon whose flat, it was supposed, the fate of SIMMONS depended and for a time he was deby telegrams from Boston and threat- nah Advertiser.

ened with political ruin if he persisted, he yielded and Boston was jubilant in the thought that SIMMONS was lost. But alas for the vanity of human wishes. Despite BOUTWELL'S defection, when the vote was reached, by a union of Democratic votes with those of the Republicans favoring him, SIMMONS was confirmed and is now Collector of the port of

the contrary notwithstanding. What effect this confirmation, so obtained, will have, we cannot say. We can see no good, however, to come to the Democracy of the old "Bay State" unless the opposition to SIMMONS had some other foundation than the fact that he was the friend of BUTLER. Certainly nothing is to be gained politically by an addition to his strength in the State. The South has had no more active and bitter enemy; and, as is always the case with a renegade, the Demo-

cratic party no more malignant wri-

THE bill reviving the franking priviledge has, we are glad to say, been defeated in the House of Repreresentatives. While unquestionably servicable in many respects, when the frank of a Congressman was allowed to transport his wardrobe and family groceries it became a fraud which demanded abolishment. It was abolished and we trust no other effort will be made to revive it. Better the deprivation of the blessed privilege of reading the brilliant 'and learned speeches of our Representatives than such abuse of the mail facilities of a burdensome government.

A CHARLESTON telegram of the 25th reported the death of the Rev. JOHN BACHMAN, D. D., L. L. D. Dr. BACHMAN was the venerated and beloved pastor of the Lutheran Church of that city. He was distinguished as the co-laborer of AUDUBON and AGASSIZ and possessed great efficiency in ornithology. He was born in Duchess county, New York, on the 4th of February, 1890. He was associated with Auducon in his scientific researches and in the preparation of his celebrated work on the bride of America. He has been a constant and valued contributor to many of the leading and scientific periodicals of this country. In private life he was universally esteemed for his winning, genial manners as well as for those more substantial qualities, which command the respect of men.

THE HON. B. H. HILL has recently delivered a lecture before the Georgia Historical Society in which some statements were made which are valuable as contributions to his true worth.

In that address Mr. HILL expressed the opinion that DAVIS in the Cabinet was the equal of LEE in the field. Speaking of the removal of General Johnson from the command of the Western army, for which Mr. DAVIS was held solely responsible and was greatly blamed, Mr. HILL says that the matter was long considered was the last to give his assent to the removal. He desired to retain Gen. JOHNSTON but reluctantly yielded to the pressure from outside sources brought to bear upon him.

In speaking against the Senate bill for the appointment of a commission to consider the regulation of the al-coholic liquor traffic, Senator Schurz uttered some thoughts that bear directly on the prevailing crusade against saloon keepers. To attempt to suppress intemperance by such means, he said, was beginning at the wrong end. The surest way to allure men from bad pleasures was to substitute better ones for them. A lasting reform could best be reached by the introduction among the people of wholesome social enjoyments. Mr. Schurz ridiculed the commission suggested, and proposed that Congress should extend its investigations to gambling, extravagance in dress, and the effect of the consumption of hot soda upon society.

DYING LYING.-Mary Costigan was murdered in Somers, Conn , last autumn. She was found with her throat cut, but she lived long enough to make a sworn statement that her assailant was Frank Powers, a negro of the neighborhood. She told a circumstantial story, and nobody doubt-ed the guilt of Powers, who was at once arrested. Subsequent revelations, however, showed that the real murderer was her husband, and that the wife died with perjury on her lips to shield him from punishment for his crime. His trial has just ended in his conviction of manslaughter.—Albany Journal.

In the Senate yesterday, Mr. Sumner made a long speech against a Centennial appropriation, and Mr. Frelinghuysen took strong ground on the other side. The apathy and in-difference with which the subject was regarded a few weeks ago seems to be passing away, and, notwithstanding the determined opposition to an ap-propriation by Congress, it is by no means certain that the friends of the project will not be successful in their efforts to obtain one. The majority of our exchanges seem to be opposed to the international idea, and in favor of making it simply a national dis-play.— Washington Republican.

The temperance crusade has reached Georgia, and was to have commenced operations in a mild way at Columbus on last night. There was no singing of psalms or putting up of prayers in bar-rooms on the programme, nor were the ladies to have the matter in entire charge, but the ball was to have been opened by a temperance meeting in the Baptist

Church. The local editor of the Enquirer adds an observation somewhat to the the effect that the spasm in that quarter will be brief, and that old and exfiant and refused. Finally, deluged perienced barkeepers predict a lively business after a little while.—Savan-

Daniel Drew, the great New York millionaire, is lying dangerously ill at his residence in that city.

There are 1,450 granges of Patrons of Husbandry in Indiana, an average of sixty to each county.

FERTILIZERS.

### 1874. FERTILIZERS! FERTILIZERS!

No. 1 Pernyian Guano, [Guanape.] Soluble Pacific Guano. Lister's Standard Super Phosphate of Lime. Whann's Rawbone Super Phosphate of Lim Lister's Pure Ground and Dissolved Bone. Land Plaster.

We again offer to the Planters of North Carolina, the above named HIGHLY approved Standard Fertilizers.

These Guanos have been used season after season, and have uniformly given satisfaction, and we consider it unnecessary to give here any high sounding chemical analyses to induce the prudent farmer to use them, as the experience of several years bear testimony in the most satifactory manner as to their real merit and reliability.

In the above we are offering Fertilizers that can be relied upon, and no one need take the great risk of experimenting with anything new and entirely unknown, because it is offered at an apparently low price.

PRICES:

Soluble Pacific Guano, Cash \$50. Lister's Standard Super Phosphate, Cash \$50. Whann's Rawbone Super Phosphate, Cash \$55.

It is an admitted fact, confirmed by many years of experience, that an ordinary application of approved Standard Fertilizers to Cotton and Corn increases the yield to double the production of the same soil unfertilized. This statement is not exaggerated; on the contrary the results more frequently exceed than fall short of the above increase.

#### SPECIAL TERMS:

We will sell a limited quantity of SOLUBLE PACIFIC GUANO and LISTER'S STANDARD SUPER PHOSPHATE OF LIME for a bale (400 pounds) of Cotton per Ton, and WHANN'S RAWBONE SUPER PHOSPHATE OF LIME for a bale (450 pounds) of Cot-

"On last Saturday a gentleman of this city purchased several heads of cabbage for dinner and in preparing cabbage for dinner and in preparing them the cook took the precaution to ship them of all surplus and suspicious leaves, and to quarter and wash them after the most approved fashion of the culinary art. As she was in the act of depositing them in the pot, however, she was startled and somewhat demoralized by discovering cosily nestled within the heart of the hud a venomous spreading-adder, rebud a venomous spreading-adder, regarding her with all the fury of an invaded patriot. It is scarcely necessary to remark that that cabbage was eschewed for dinner that day.

Petersburg, Va., December 17th, 1873. To the Farmers and Guano Dealers of North Carolina and Virginia: Gentlemen: To the mary of you with whom I am personally acquainted, I would say, that of good results from GUANAHANI GUANO, I have not the shadow of a doubt. Containing, as it does, in such large amounts, the essentials for plant food, success from its application would seem certain. It being of animal origin, you will see at once that its ingredients must be all soluble in the soil. Its nitrogen, from nitric acid, is the most available form known to chemistry; the other part, from undecomposed animal matter, is preferable to the volatile salts in Peruvian Guano. I ask of each of you the kindness of a thorough examination of the accompanying analyses by two of the great chemists of the country. With respect, yours truly,

THE COMPANY GUARANTEES THAT EVERY CARGO WILL BE ANALYZED BEFORE IT IS OFFERED FOR SALE.

GUARANTEED ANALYSIS. Ammonia, from both Nitrogen and Nitric Acid... Bono Phosphate of Liwe..... LETTER FROM PROF. WM. C. KERR, STATE GEOLOGIST OF NORTH CAROLINA: Raleigh, N. C., January 7th, 1874. Wm. R. Griffith, Esq., General Agent Guanahani Guano Company, Peters-

burg, Virginia:

Dear Sir: Dr. F. A. Genth, whose Analysis of the Guanahani Guano you have shown me is Chemical Minerologist to the Geological Survey, and has no superior as achemist. I have no Fe itation in endorsing any analysis from his laboratory. And I think the analysis justifies his statement that the substance examined by him is a VALUABLE MANURE.

From his report, and that of Prof. Wilson, it is evidently a TRUE GUANO, both in origin and composition and its action on group may be expected to be the same in kind. origin and composition, and its action on crops may be expected to be the same in kind and in degree proportioned to its relative per centage of the valuable ingredients—Phosphoric Acid, Ammonia and Potash, that of the first being unusually high.

Yours truly,

W. C. KERR, State Geologist.

The following analyses of different cargoes and samples by two of the leading chemists of the country, are given for the guidance of the public:

LETTER OF PROF. P. B. WILSON, LATE ASSISTANT OF BARON J. VON LIEBIG. CHEMICAL LABORATORY OF PROF. P. B. WILSON, No. 30 Second Street,

Baltimore, December 1st, 1873.

Maj. N. M. Tannor, President Guanahani Guano Company, Petersburg, Va.:

Dear Sir: I have drawn samples of the Guano, as it has arrived in cargo lots, and find it exceedingly uniform in the amount of Phosphoric Acid it contains, namely, from 15 to 19 per cent. This is combined with Lime, and is of animal origin, and readily assimitable by plants. It contains potential ammonia and nitric acid, having a combined Nitrogeo value equal to from 2 to 3 per cent. of ammonia, with the alkalies Potash and Soda, and valuable propo tions of sulphate of Lime. The whole forming a very desirable combination for all crops, and when applied to land, the crop receiving proper tiliage, must, in my opinion, give as good results as any guano offered to the farmer.

Bein: of animal origin, the organic matter has undergone partial decomposition, and it wecessarily contains a valuable amount of Humus, which makes its fertilizing power much greater than fertilizers which are compounded large y of Peruvian Guano, which, beyond its ammonia and small phosphatic value, has little or no power in absorbing from the atmosphere and retaining in the soil the movable elements absorbed by moisture and brought down by the rains, as the guano you are now placing upon the market. All of the components of this Guano are very soluble in the soil, and prossess such physical properties as to render it at all times and ut der all circumstances as in mediately available plant food.

The late samples you sent me for analysis, from the deposit which you inform means. CHEMICAL LABORATORY OF PROF. P. B. WILSON, No. 30 Second Street,

available plant food.

The late samples you sent me f r analysis, from the deposit which you inform meyou into d to ship from, show a dec ease in the phosphatic value, but a large increase in its nitreges compounds. I think, however, from orevious observations of cargoes, that you any reasonably expect, that cargoes taken from where these samples were drawn, will materially improved in the saline compounds, (phosphates alkalies and magnesia.

Maj. N. M. Taannor, Petersburg, Va.,

DEAR SIR: In compliance with your request, I have analyzed sample of "Gusnahani Guano," and have made additional examination of an average sample from a lot of 300 tons, the result of which, I beg to embrace in the following: The Guano is a brownish powder, with lumps of combinations of lime with Carbonic, Phosphoric and Nitric acids, it contains a considerable quantity of water (about 20 per cent.), and when dried is a paler brown powder. The Guano is evidently of animal origin, and the minute bones, which were discovered in the same, indicate that it is the resu't of the decay of bats, mice, &c. The quantity of organic matter, which is still present, is about 12 per cent., and this yields about 2½ per cent. of ammonia. A portion of the nitrogen is present, as nitric acid, of which about 3 per cent. of ammonia. The phosphoric acid in the Guano; about 12½ per cent., equal to 27 3 per cent. of bone pho-phate. A considerable quantity of the phosphoric acid, however, is present, as so-called neutral phosphate of lime, which, being slightly solt ble in water, renders the Guano as quick in its action, as a corresponding quantity of superphosphate would do. The small per centage of pot-sh, which was found in the analysis, adds to its value.

From all the experiments which I have made of the Guanahani Guano, no doubt can exist that it is a valuable manure.

Yours truly,

Dear sir: Yours in regard to the Guano was received some time ago, and as I know very little, personally, about the effect it had, I laid it aside until I could go home and in quire. I learn that it did improve the wheat to some extent, I did not apply any other Guano. I applied

[Letter from Ex-Governor Smith.] Warrenton, Va., August 4th, 1873.

Mr. E. A. DUNLAP,
I ar Sir: The extraordinary character of the season (a rain almost every day,) puts it wholly out of my power te form an estimate of your Guano. The crops of corn and rutabagas to which it applied, look very flue.

Yours, truly.

WM. SMITH.

Bethel Academy, Fanquier County, Va., July 21th, 1873. Mr. E. A. DUNLAP.

Dear Sir: I used your Guano on my wheat last fall, and I am highly pleased with it. Think it is as good as the high priced Guanos. I have a good paying crop of wheat, and the best stand of grass I ever had, and this is the opinion of those who have seen both, notwithstanding the unfavorable winter and early spring. I shall use it again this fall.

Yours,

This crop of wheat, 28 bushels to the acre, was noticed in the Warrenton and Alex-

GUANAHANI GUANO! GUANAHANI GUANOT andria papers, as the finest crop in Mr. Smith's county. Warrenton, Va., July 17th, 1878. I used your Guano on wheat last year, and consider it equal to any guano I ever used.

It pleases me well.

LEWIS SHUMATE,

Bethel Academ, Fanquier County, Va., November 12, 1873. E. A. DUNLAP. Esq.,

Dear Sir: If I could have made collections, I certainly would have used two tons o
the Guano you sent me this fall.

I consider it better for wheat than any other Guano that has been used in this county
since the war.

Respectfully yours.

M. C. BLACKWELL.

Mr. E. A. DUNLAP,
Dear Sir: The Guano purchased from , ou, was used upon corn by the side of one of
the best ammoniated soluble phosphates in the market. The quality of the land was
the same as was the quantity of guano and phosphate used. The corn where the Guano
was used appeared to start sooner, and in the fall was fully ten inches higher and ripened earlier than where the Phosphate was used.

Very respectfully, &c.,
Late firm of Neale, Harris & Co, Commission Merchants. Baltimere, December, 1873.

We, the undersigned, have sold your Guano for two seasons. Those that have purchased are buying again, and are pleased with the results.

L. KELLUM & CO., 119 Hillen street, Baltimore.

Cheston, Near Queenstown, Md., August 18th, 1873.

E. T. Wroth, Esq., Baltimore, Md.,

Dear Sir: I have your favor of 4th inst., making inquiries as to the results from application of the Guano which you sent me last fail. I applied it at the rate of 170 pounds per acre—the same quantity as of the other fertilizers I was then using. The wheat throughout the field bore much the same general appearance, with perhaps something in favor of your Guano. The grain of my crop on that field was generally of the quality, and I cannot say that I observed any perceptible difference in its appearance.

The result in quantity, (the most important point,) I regret not to be able to give you. Threshing my crop by steam power, my attention was occupied at many points, at the same time, and on one of these occasions this particular parcel of wheat was threshed before I was aware of it, and without any note of its comparative yield. I therefore cannot pronounce positively in its favor, over others; but, from its general appearance, judge it quite equal to other standard fertilizers of established reputation.

Very respectfully yours.

Dear Bir: Yours of the 4th received and contents noticed. You must excuse me for not reporting to you sooner the result of the experiment with your Guano. I seeded it by the side of \*\* \*\* \* 's Raw Bone Super-Phosphate, at the rate of 150 ibs. to the acre, of each. Whilst growing, I, nor any to whom I showed it, could not perceive the least difference. The yield was equally good—about 25 bushels to the acre. I consider it equally as good as \*\* \* \* 's, in every respect. Please Inform me the price, as I intend using some on wheat this fall.

Very respectfully yours, THOS. SUDLER. Mount Airy, Carroll County, Md., November 18th, 1873.

Moant Airy, Carroll County, Md., November 18th, 1873.

WM. R. Griffith, Esq., General Agent,
In reply to yours of the 12th, will say, the farmers can say but little, as yet, in regard to Guanahani Guano. But Maj. A. G. Davis, who used one bag, by the side of several other fertilizers, says, so far, the Guanahani looks better than any of the others. All parties say, so far, they can see no difference in their grain wherever it is up sufficient to judge. By the Spring, I can give you a more satisfactory report. Hoping to have the pleasure of a visit from you, soon,

I am, truly yours, W. H. B. DORSEY. P. S.-I have commenced making a stir for the Spring trade.

W. R. GRIFFITH, Esq.,

Dear Sir: Yours of the 12th inst., was received on yesterday, and, in compliance with your request, I hasten to reply. I purchased half ton of Guanahani Guano, from Measrs. Rowlett & Tannor, 1st of October, 1873, to use upon my wheat crop, as an experiment. I applied it 200 lbs, per acre. The wheat was seeded from the 10th to the 17th of October. I was very careful in the application, leaving two strips of land through the field; one of an acre, the other two acres. The one acre strip was manured with \*\* \*\* \* Phosphate. The two acre strip was in tobacco, heavily manured with stable manure and \* \* \* \* \*

Tobacco Fertilizer. I also added a strip of very poor land (stubble) on one end, three-fifths of an acre. Upon this I applied 100 lbs. of Guanahani, and also moistened the wheat and rolled it in the Guano. (I mean the wheat sewn upon this three-fifths sirip.)

The season has been favorable, and the young wheat is looking very well; and that upon the narrow strip of poor land, equally as good as upon the heavily manured tobacco land. I am satisfied 'hat the Guano is acting upon this strip of wheat, as the land was very poor. I do not think that it would be well for me to make a positive assertion just yet, bu' will carefully note the result and let you hear from me again.

Yours respectfully. San Marino, Dinwiddie Co., Va., November 15th, 1873.

Messrs. Rowlett & Tannor,
Dear Sirs. In reply to your inquiries in regard to the Guanahani Guane, which I purchased last summer, I can only say that I applied it on my wheat crop, sowing it broadcast and plowed it in with the wheat. So far, I am vary much pleased with the Guano.
Where I used it, the wheat looks better than any I have seen, and my neighbors who have seen it, consider it so. I applied it the first of October, and it shows very plainly over the wheat where there was nothing used.

Very respectfully,

JOHN J. MITCHELL. Kingston, Dinwiddie Co., Va., November 28th, 1873.

Yours respectfully.

[Note.—Mr. Mitchell has since ordered 10 tons for his Spring crops ] Millstone Landing, Md., December 1st, 1873. Mr. E. A. DUNLAP.

Dear Sir I am just in receipt of your letter, but regret that I did not receive it sooner.

I used your Guano side by side with \* \* \* \* \* \* \* \* Ammoniated Super-Phosphate, and could perceive no difference, only in growth of the straw. The straw from \* \* \* \* \* \* \* rather the largest. The grass from it was equally as good, and I do not hesitate in recommending it to farmers as a reliable fe: tilizer.

Very respectfully,

ELKANAH WISE. Dinwiddie County, Va., November 21st, 1873. Messrs. McILWAINE & Co., Petersburg, Va., Gentlemen: I used the Guanahani Guano, purchased of you, on wheat at the rate of 300 lbs. per acre, on corn land. The wheat is looking well. I think it will prove a good fer lilizer.

A M OPGAIN

Sussex County, Va., December 12th, 1873. Sussex County, Va., December 12th, 1873.

Messrs, Rowlert & Tannok, Petersburg, Va.,

Dear Sirs: I used on my wheat, sowed about the 1st of October, a half ton of Guanahani Guano, and so far I am very much pleased with its action. Where I used the Guanahani the wheat is looking remarkably well—a great deal better than the wheat

Very respectfully, Prince George County, Va., December 16th, 1873. Messrs. Bishop & Branch,
Sirs: You ask me my opinion of the Guanahani Guano I puechased of you last fall.
I used the guano on my wheat, but owing to the unfavorable fall for the growth of wheat, it would be impossible for any manure to show its strength fully. Fowever, I think the guan oa good jertilizer, from the fact, that the wheat looks as well as it does where a well known fertilizer was used that cost nearly double the money.

Respectfully,

A. G. JORDAN.

Petersburg, Va., December 16th, 1873.

Wm. R. Griffiih, General Agent of the Guanahani Guano Company,
Dear Sir: In reply to your enquiry about the action of the Guanahani Guano on my
wheat crop, I would say, up to the present time it is looking very well.
Yours truly,
SAMUEL H. JONES,
Frince George County, Va.

Broad Run Station, Fauquier County, Va., December 4th, 1873. Mr. E. A. DUNLAP,
Dear Sir: I left one row without your fertilizer, and used it on the next row. I used at the rate of 200 pounds to the acre. I had the corn care ully gathered separate, and found the result as follows: From the Guano row I shelled one bushel and nearly a half gailon; from the row without guano I got a half bushel and not quite a quart; making fully double where I used guano. The growth of stalk was not proportionately heavy—the strength seemed to go to the grain. I think it an excellent Spring fertilizer. The laud I tried it on was quite thin.

Yours, &c.. Mr. E. A. DUNLAP,

Yours, &c., Poplar Mount, Greensville County, Va., December 17th, 1873.

Messrs. Rowlett & Tanner.

Gentlemen: Yours of the 15th is received. You ask "How I like the Guanahani Guano, so far?"

In reply I have to say that I used five bags last fall, experimentally. I applied four bags to wheat at the rat? of 200 pounds to the acre. I used the same quantity (200 pounds) on winter oats. The wheat was not sown until about the 20th of October, but has already a healthy, vigorous blade. The present indications lead me to believe that it is decidedly superior to any of the sup-r-phosphates.

The winter oats we e sown the last of September. In the application to this crop, I have, in consequence of earlier seeding, a better opportunity of observing the effect of the Guanahani Guano. Here it is most marked and decided. It reminds me of former days, when, for a moderate outlay of money, the farmer purchased the pure Chincha Island. (unadulterated) Peruvish Guano.

I wish to try some of this Guano next year on cotton and tobacco.

I am, very truly yours,

GEORGE W. FIELP. Poplar Mount, Greensville County, Va., December 17th, 1873.

The Company recommend an application of from 200 to 250 pounds per acre, but not over the larger amount.

As it will be impossible to bring but few theusand tons to this country in time for the spring irade, orders must be sent at an early day to secure it.

He brings action for damages against Baez, charging the President with conspiring against his liberty, wealth and life, while he was a resident in Santo Domingo. It seems that Hatch acquired possession of an immense salt mine in Santo Domingo from the Spanish authority, was suddenly arrested and charged with being in sympathy with the Cabral faction. was sent to prison and kept there five months. He was brought before a drumhead Court Martial tried and sentenced to death. He was then pardoned by Baez, and his mine was confiscated. The complaint of the plaintiff recites a story of frightful corruption, fraud and villainy and the trial will bring forward eminent men of the government. The bail was fixed at \$25,000.

Carpenter is thus quoted: That the Republican party can only avoid defeat by unloading from the burden of Louisanna. The change of date will be made to conciliate industrial interests. The Railroad strikers.

CLEAVELAND, March 2.-The Convention of locomotive engineers adjourned sine die on Saturday evening. It is authoritatively stated that a demand will be made upon all Railroad Companies that have made a reduction in the wages of their engineers to restore them to the former figures, and if this is not complied with a strike will be ordered. It was also determined that in case of the necessity arising for a strike on any of the through lines it shall become general. A very prominent eastern railway official telegraphed on Saturday to the leading railway manager of Cleaveland that John Fahenbach, President of the Machinists' and Blacksmiths' National Union, has for some weeks been trying to organize a strike among the mechanics and other day laborers. The telegram 'He represents that men on the N. Y. and other western roads and upon the Pennsylvania and Erie lines, are ready for the signal."

Provisions of Senator West's Loyal Claims Bill-A Bloodless Mill--Waitte to be Inaugurated Thurs-

day -- Congressional News.

WASHINGTON, March 2.- The bill introduced by Senator West for the settlement of loyal claims provides that the Court of Claims shall have sole jurisdiction of all claims against the United States brought by loyal persons for all classes of property de-stroyed, occupied, used or taken by the army and navy of the United States for and in the service of the United States, also that all persons who have been restored in the rights of person or property, after participation in the late rebellion, by reason of any amnesty proclamation or personal pardons of the President, and who resumed their allegiance before the final ending of the war, shall be entitled to the benefit of the provisions of this bill. It also abolishes the Southern Claims Commission, and provides that all claims now pending and undetermined by said Commission, or before Quarte-master General, Commissary General. Third Auditor of the Treasury or other Executive departments of the government, shall be transferred for adjudication to the Court of Claims, which, after rendering judgments on the same, are required to report them to Congress for its action thereon, although either the United States or the claimant can appeal for final review to the Supreme Court of the United States in all cases where the amount involved is over three thousand dollars; so that when the action of Congress is had upon the same the full equities and law of each claim shall be made up for its determination.

The bill furthermore provides for Commissioners to be appointed in each Judicial District in the United States by the Court of Claims. These Commissioners are empowered to summon witnesses, take testimony, employ stenographers and fully pre pare each presentation to said Court. The Government is to be represented by the respective district attorneys, and the orders of the Commissioners are to be enforced by the respective United States Marshals. The docket of each case is to be open to inspection of the public when completed. Other detailed provisions guard the rights of the United States and claimants by prohibiting unnecessary delay after the commencement of suit, and enforcing severe penalties for the misconduct of Commissioners. The costs and expenses in each case are to be borne by the successful

litigant. It is claimed that the enactment of this bill would save to the Government a vast sum of money annually expended in salaries of employees and other expenses in the various departments engaged in examining and setting such claims, besides the great expenses to which claimants are now subjected in coming to Washington to prosecute their claims, which, under this bill, can virtually be prepared for determination in their respective

House.-Among the bills introduced was one in regard to an advalorem tariff of 35 per cent. on maccaroni and vermicelli; to prevent mal-adinimistration in the civil service by officers against whom articles of impeachment are presented; also to enable members of Congress to do the public business with their constituents and other departments of the Government, and to limit the franking privilege to certain news-papers. The latter bill provides that during any session of Congress, and for thirty days prior and subsequent thereto, all written and printed matter sent to members, and all written and printed matter, and such other things as have been ordered by either House for distribution, shall go free of postage. MISCELLANEOUS. ATTENTION FARMERS

The recent invention of J. B. UNDER-WOOD, of Fayetteville, N. C., is the great-

LABOR SAVER OF THE AGE. With ONE MAN and ONE HORSE, it does the work of from SIX to TWELVE men and from TWO to FOUR horses. It bars both sides, weeds, chops and diris the cotton at the same time. After the chopping, it is converted into a most excellent CULTIVATOR,

for use throughout the season. It has taken the Gold Medal at the Georgia State Fair, as the most important and latest improvement in Agricultural Implements, and the first premium everywhere it has been exhibited. It bears the highest testimonials of its thorough, practical success.

Price of Machine with attachments, 335, and freight.

DOUBLE ACTING FORCE PUMPS Selid Porcelain, Iron, Brass or Block Tin Pumps.

One Hundred Dollars Premium will be paid by me to be shown a family or fac ory pump to equal mine in general merit. Four years experimenting and perfecting these Pumps, and twenty years steam milling and steam-boiling where pumps were of much consideration, enables metoguarantee entire satisfaction. I make two class of pumps, seven sizes, and a dozen different styles, to go by hand or power. These pumps, covered by letters and a dozen different styles, to go by hand or power. These pumps, covered by letters patent, have taken the medal and premium over all domestic pumps in the State. Been tested in over fifty fires and saved millions by extinguishing the fires on dwellings, cotton gins, saw mills, turpentine distilleries, tobacco and cotton factories, and not one overcome yet. Hundreds of those in wells eighty-five teet and under over three years, without even the expense of repacking. They are all changed in half a minute by attaching hose from a common pump to a fire engine, throwing thirty to hundreds of gailons per minute, a coording to size, on the roof of three story buildings.
